

**BUY 4  
GET 1  
MORE**

**STIMULUS PACKAGE**

**Gear up for Summer!  
Beginning May 1st  
through May 31st,  
2020, we're handing  
out FREE tools!**

And here's how it works:  
When you buy four of the same  
item, we'll give you the fifth free.  
And it's good on any of the  
end mill brands listed in the  
catalog!

**Simply enter promo code  
(FIVE4FOUR) on your  
purchase order**

(All five items must be the same.  
No substitutions.)

**HIGH  
PERFORMANCE**

**2 & 3 FLUTE SILVERBACK**

For roughing and finishing of non-ferrous materials, aluminum, copper, brass, plastic, etc. High velocity, high material removal rate. Variable flute and variable index.

**HIGH  
PERFORMANCE**

**3 FLUTE SILVERBACK  
CHIMPBREAKER**

Evacuates chips in the toughest applications while decreasing tool pressure. Variable flute, variable index and engineered to repel aluminum. For roughing and finishing of non-ferrous materials, aluminum, copper, brass, plastic, etc.

**HIGH  
PERFORMANCE**

**4 & 5 FLUTE GORILLA MILL**

Patented variable flute and index design which reduces chatter and vibration. Recommended for aggressive machining applications in all materials including, stainless, inconel, titanium, tool steels and hardened materials. Available in extended neck to provide clearance for deep pocketing, slotting or profiling.

**STANDARD  
PERFORMANCE**

**2, 3 & 4 FLUTE PRIMATES**

Extremely versatile in various materials, center cutting, solid sub-micron carbide.

**HIGH  
PERFORMANCE**

**2 FLUTE DIE/MOLD CHIMPS**

Recommended for 3D Surfacing applications in die, mold and tool steels, (H-13, P-20, A7, D2, etc.).

Speeds and Feeds available at [gorillamill.com](http://gorillamill.com). Check out the online calculator for material specific parameters.

**SUPER BITCHIN'  
PERFORMANCE**

**5 FLUTE PHENOM**

Variable flute and index design which reduces chatter and vibration. Recommended for aggressive machining applications in all materials.

**SUPER BITCHIN'  
PERFORMANCE**

**5 FLUTE PHENOM  
CHIMPBREAKER**

Evacuates chips in the toughest applications while decreasing tool pressure. Variable flute and index design which reduces chatter and vibration.

**SUPER BITCHIN'  
PERFORMANCE**

**7 FLUTE BABOON**

Variable flute and index design which reduces chatter and vibration. Recommended for aggressive machining applications in all materials.

**SUPER BITCHIN'  
PERFORMANCE**

**7 FLUTE BABOON  
CHIMPBREAKER**

Evacuates chips in the toughest applications while decreasing tool pressure. Variable flute and index design which reduces chatter and vibration.

**SUPER BITCHIN'  
PERFORMANCE**

**4 FLUTE YETI**

Built tough for heavy roughing in all materials especially high temp alloys. GMS<sup>2</sup> coating & geometric enhancements allow for work on difficult-to-machine materials including: Inconel, Waspaloy, Hastelloy, Rene, Stellite, 17-4 SS, 15-5 SS, 13-8 SS, & Titanium.

**SUPER BITCHIN'  
PERFORMANCE**

**4 FLUTE SASQUATCH**

Extremely high material removal rates while maintaining a superb finish. Recommended for aggressive machining applications in all materials.

**HIGH  
PERFORMANCE**

**3, 4 & 5 FLUTE KNUCKLEDRAGGERS**

Extremely high material removal rates while maintaining a superb finish. Recommended for aggressive machining applications in all materials.
