

# TEST OUR TOOLS GET **FREE** SWAG

Want Swag? // **Here's how**

- ① **Identify Objective:** Evaluate current processes to determine your target metric for improvement. For example Tool Life, Cycle Time, Surface Finish, Exit Burr Reduction, etc.
- ② **Select a Tool to Test:** Work with your local Nachi representative for a tool recommendation specific to your goals for process improvement.

- 3 Perform the Test:** Receive recommended parameters for the tool selected from your local Nachi Representative. For any tech issues contact a Nachi Engineer at [ml-nai.toolsengineer@nachi.com](mailto:ml-nai.toolsengineer@nachi.com).
- 4 Submit Detailed Test Data:** Connect with your local sales representative to submit the data listed below and any other observations during testing:
- Machine Type
  - Work Holding / Setup
  - Tool Holding
  - Coolant Type and Supply
  - Speed / Feed
  - Hole Depth / Mills Width and Depth of Cut
  - Tool Number
  - Tool Life
- 5 Pick Out Swag:** While supplies last, **some products may not look exactly the same as new inventory is expected.** For a complete list of swag contact [ml-nai.toolsengineer@nachi.com](mailto:ml-nai.toolsengineer@nachi.com).
